

DAM REPAIR UPDATE

Dam Repairs were completed last week per Bob Beckey, Dam Keeper and Frank Hogan, Chairman Dam Committee.. The Dam gate was closed last weekend and water levels will return to normal shortly.

Please thank Bob Beckey, Frank Hogan, Chuck Dunn and his crew for all the work they did to get this done. If I missed, anyone please forgive me and let me know.

In addition thank you to Dawn Hallowell, DEP and Charles Rossoll, DEP and Francis Brautigam, Biologist MDIFW for their help providing approval to do the work.

Have a safe and wonderful Holiday Season. Please be careful and stay off thin ice. Review the safety tips provided in our Fall Newsletter and on the MDIFW website where you can find lots of helpful Safety Information.
